Background
William Thiel was a long time philanthropist in the Wyoming County area. His generosity through monetary gifts to the hospital, fire departments, and other community organizations in Wyoming County was well known. He also left a significant legacy to the County through the creation of the William F. Thiel Trust, a fund held by the Community Foundation for Greater Buffalo. The fund document of the William F. Thiel Trust states that distributions

“from this gift shall be used and applied by the Governing Committee of The Buffalo Foundation (now the Board of Directors of the Community Foundation for Greater Buffalo) for the use and benefit of the health requirements of the residents of Wyoming County, New York.”

Project Focus
In 2006, the Community Foundation implemented its first strategic plan. As a part of the plan, the foundation made the decision to put a concerted effort behind the Thiel Trust commissioning the first Wyoming County Health Needs Assessment. The assessment surveyed local healthcare experts, governmental agencies, providers, and the general public along with a view of the general trends in national rural healthcare to determine what the highest needs of the county were. The Health Needs Assessment was refreshed in 2012.

With ten years of funding history guided by prior Health Needs Assessments, the Community Foundation recast the Wyoming County Health Needs Assessment in 2017. The 2018-2022 Thiel funding priorities were chosen utilizing both qualitative and quantitative input. Two reports were commissioned to guide the process and feedback was solicited from local health care providers and experts.

The reports are available at www.cfgb.org under the William F. Thiel Grants section of the website. Most pertinent to the process is the 2018-2022 William F. Thiel Trust Grant Funding Priorities document. Applicants should review the Grant Funding Priorities paper in detail to determine if their request fits within the identified interests of the Community Foundation.
